

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning on page 1, line 9 with the following paragraph:

This invention is in the field of capturing, archiving and distributing textual and multimedia data. The invention is a method and system for capturing and archiving both medical images and their associated data. The associated data may be text, video, or audio data. The system software binds together the textual data supporting the images and other multimedia data. The system software may be used by various medical specialties.
